Allowable Subject Matter

Claims 1-18, 33-41 are allowed.

The following is an examiner's statement of reasons for allowance: Steen, and the other references of record, does not show or suggest a food holding oven for holding pre-cooked food (i.e., food having been previously cooked in a cooking appliance) at a food holding temperature, at least one radiant heat source spaced above the food a distance less than 12 inches for delivering radiant heat to the food, and a control mechanism for varying the amount of radiant heat delivered by the heat source to the food during a duration of holding time to maintain the food at the selected holding temperature. Rather, Steen discloses an electric oven for reducing the cooking time for baking or frying raw (not-precooked) food products by applying heat simultaneously to the top and bottom.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
